- Incollare i particolari 1A e 2A su cartoncino di spessore circa 4 mm
- Incollare le pareti 1 B, 1C e 2B con le precedenti
- Incollare il terrazzo 2C
- Adattare a misura i componenti 2D, 2E, 2F e incollarli secondo il disegno in alto a sinistra

- Volendo si puo' dare piu' tridimensionalita' all'edificio stampandone tre copie. Una viene lasciata tal quale, in un'altra si ritagliano i vani per le finestre e dalla terza si ricavano i particolari in cemento. I tre livelli verranno incollati sovrapposti curando di avere negli angoli il corretto spessore.
